

New: Logicontrol 100/200

Innovation at your Fingertips – The New Machine based Control Center for Kardex Remstar Automated Storage Systems.

new

IDEAL SOLUTION FOR:

SMALL- TO MEDIUM-SIZED APPLICATIONS UP TO 3 AUTOMATED STORAGE UNITS

SIMPLE ACCESS TO STOCK BY PART NUMBER

COMPANIES WITH SEASONAL AND AGENCY WAREHOUSE OPERATORS

ENTRY LEVEL STOCK CONTROL

STANDALONE SOLUTIONS

Kardex Remstar introduces a new control generation to complement all Kardex Remstar automated storage and retrieval systems.

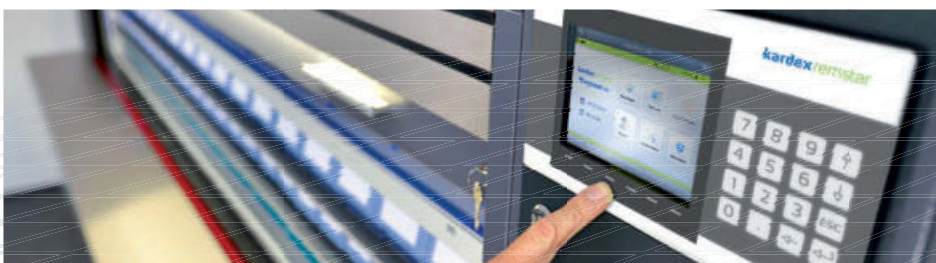

This machine based control center brings major improvements in ergonomics and usability of Kardex Remstar automated storage and retrieval systems. It provides a simple, intuitive touchscreen user interface and a basic space management and reporting environment for the Shuttle XP and Megamat RS automated storage systems, with a new state-of-the-art design optimized for both touch and keyboard usage.

For customers not requiring a WMS system, the Logicontrol provides an alternative machine based control solution, which means:

- No additional hardware required, no PC workstation required
- No loss of data and investment if upgrading to a PC based software solution at a later stage

Benefits at a glance:

- No additional hardware required
- Time efficiency
- Rational use of your resources
- Intuitive operation
- Ergonomics and user friendliness
- No additional user training needed
- Stock management of up to 3 automated storage devices at one time
- No loss of data and investment if upgrading to a PC based solution

A Smarter Way to Manage your Parts with Logicontrol 100/200.

Logicontrol 100 – “Pen and Paper”

- New standard functionality of the Kardex Remstar control center
- Simplified inventory control
- Simple operation
- Manually managed list of materials linked to carrier and position without quantity
- Full alphanumeric keyboard optionally available

Logicontrol 200 – “Location Management”

- Based on Logicontrol 100
- Simple location management of up to 8,000 storage locations
- Pick and put of items with system support
- Full alphanumeric keyboard optionally available
